- E. "Department" and "DCF" refer to the Florida Department of Children and Families.

Question #	Question / Inquiry	Answer / Response
1.	In reading through this LCP for the FIT program model, it appears that the \$502,183.00 described is specifically for use in the Pinehills area of Orange County. It also appears that this call for procurement is only for the high risk Pinehills region or can the balance of the \$876,179, not earmarked for Pinehills also be applied for to use in other high risk Central Florida areas such as Osceola County? If so, can they be applied for through this LCP? If not, will another be forthcoming?	The only funding allocated to Central Florida Cares Health System, Inc. is the \$502,183 specifically for services in the Pine Hills community of Orange County. The remaining Central Region funds were allocated for services in Citrus, Hernando, and Polk counties. These counties do not fall under the jurisdiction of Central Florida Cares Health System, Inc. Geographic boundaries for each managing entity can be found at the following link: http://www.myflfamilies.com/service-programs/substance-abuse/managing-entities
