

OPIOID CRISIS HELP IS HERE

DID YOU KNOW 250 million prescriptions for opioids were written in 2012, enough for every adult in America to have a bottle of pills (Surgeon General).

How soon can I get help? **NOW!**
What is the cost? **Free or Reduced Cost**

Opioid addiction affects many aspects of our communities; such as, public and private sector employers, tourism, education, law enforcement, criminal justice system, child welfare, and hospitals...all taxpayers. Most importantly it affects families, children, and our consumers. It affects **EVERYONE**. How can you help? Educate yourself. Learn what signs to look for and what resources are available?

Call **911 immediately** if a person exhibits any of these symptoms:

- Inability to think, talk, or walk normally
- Extremely pale and/or feels clammy to the touch
- Body goes limp or weakness
- Fingernails or lips have a purple or blue color
- Vomiting or making gurgling noises
- Cannot be awakened or are unable to speak
- Trouble breathing or shallow breaths
- Heartbeat slows or stops
