PURPOSE:

This BE/OCA combination captures allowable costs through the Managing Entity under the two-year discretionary State Targeted Response to the Opioid Crisis grant awarded by the Substance Abuse and Mental Health Services Administration. Six hospital-based pilot programs will be implemented to link individuals in hospital emergency departments who have experienced an opioid related overdose or other medical complications due to their opioid misuse to medication assisted treatment and/or other treatment and support services. The grant will fund six Managing Entities to conduct a single hospital pilot in their catchment area during the grant period. The funds are to be used to purchase care coordination from a community provider (i.e., peer organization, treatment provider, etc.) delivered by certified peer recovery specialists in emergency departments. Eligibility includes individuals who are indigent, uninsured, or underinsured and have an opioid use disorder.

Additionally, Opioid STR funds may not be used for the following purposes:

To provide services to incarcerated populations (defined as those persons in jail, prison, detention facilities, or in custody where they are not free to move about in the community).

To make direct payments to individuals to induce them to enter prevention or treatment services.

To make direct payments to individuals to encourage attendance and/or attainment of prevention or treatment goals.

To pay for the purchase or construction of any building or structure to house any part of the program.

To pay for housing, inpatient detoxification, or residential service.

To supplant (or replace) existing funds for services.

SOURCE OF MATCH:

This BE/OCA combination is 100% funded by the Federal Government; therefore, no match is required.

COST ALLOCATION METHODOLOGY: Costs associated with this BE/OCA combination are directly charged State Targeted Response to the Opioid Crisis Grant.

BUDGET RESTRICTIONS: Only five percent of the total grant award is permitted to be used for administrative and infrastructure costs to administer the grant. At least 80 percent of the remaining grant award must be spent on opioid use disorder treatment and recovery support services.

Funds may not be expended by any agency which would deny any eligible client, patient or individual access to their program because of their use of FDA-approved medications for the treatment of substance use disorders (e.g., methadone, buprenorphine, or naltrexone). In all cases, MAT must be permitted to be continued for as long as the prescriber or treatment provider determines that the medication is clinically beneficial. Grantees must assure that clients will not be compelled to no longer use MAT as part of the conditions of any programming if stopping is inconsistent with a licensed prescriber's recommendation or valid prescription.

SOURCE OF FUNDS: This BE/OCA combination is funded through the Substance Abuse and Mental Health Services Administration, State Targeted Response to the Opioid Crisis Grant.
